Re: Ex Parte Presentation – IP- Enabled Services, WC Docket No. 04-36

Dear Ms. Dortch:

Yesterday Guy Clinch, Gary Becker, Paul Michaelis and I, all of Avaya Inc., met with Jeffrey Carlisle, Robert Pepper, Roger Woock, Robert Tanner, Richard Hovey, Cathy Zima, Jerry Stanshine, Russ Hauser and Christi Shewman to educate the FCC staff on Avaya and discuss two major areas included in the IP-Enabled Services NPRM. Avaya's comments were consistent with those contained in its written comments in this proceeding. Specifically, Avaya urged the FCC to establish standards for E911 and possibly consider a separate NPRM for E911. Avaya discussed what is technically possible today with regard to MLTS providing call back and location information. Avaya also urged the FCC to require VoIP systems to comply with the Section 255 provisions that are already being applied to traditional telephone systems.

Please contact me at (202) 378-2374 with any questions.

Sincerely,

Charles E. Crowders  
Vice President & Head, Government Affairs  
Avaya Inc.
